Brief OPP Moral

presented brief earlier today to PSC.

+ Cabinet.

In normal operations they would not do gun compliance through PLT's

have been prevented from fully
resolve + compliance by OPS Council +
Council.

- things negotiated + good faith have
not been carried through on.
- have now looked into design
- provided brief + materials to
OPS Deputy Chief + believed to
have found some agreement
- PCT has asked "what can we do to get
you to leave?"
- in answer if we get to leaders
we can influence solidarity.
- can more easily identify targets.
Asked if they can get a meeting can they
then distance factors in Ottawa +
elsewhere?
- Fed. Gov't cannot negotiate right now
but would meet to listen.

④ Asked Deputy Ferguson if PCT can have
autonomy + authority to operate in good
faith.

- Gov't will provide an email to PCT
to provide to 6 identified leaders
- would give 4-6 days to leave the
hold unity.

④ underlying issues have nothing to do
with policy + everything to do w Gov't.

Date 10 FEB 22

- needs to be concerted strategy
- ops + PLT need to be in concert.
- Concern = Spdy Forgiveness -
80% of people complaint + voice
25% consent.
15% "on the fence" + influenceable
by police action.
- unpredictable police action will spark
unpredictable protest action.
- heavy handed unpredictable actions will
cause more issues long term provocatively

④ Intel advy tomorrow's action "already on PD (Ch. Supt. Paddy)"

- PLT has heard of convey needs
to ask for better blockades to
be made.
- Potentially in Surrey/Windsor have said they
will leave the Ottawa leaves.
- PLT is wary on clearing Rideau/Sussex.
- PLT will ensure overall command is
aware of goals + messaging to
ensure consistency in other parts of
operations (re POU, uniform)
